ABOUT MYSELF

As a computer science student in Hungary, I'm dedicated to exploring diverse topics from algorithms to AI. I've collaborated on a UN project, gaining insights into global issues. Alongside my studies, I've pursued extra courses and completed freelance projects, honing my skills and expanding my horizons. Eager to contribute to the tech world, I embrace challenges with passion and determination.

PROJECTS

[20/02/2023 – 10/01/2024] **GreenTech**

Our student group is dedicated to empowering eco-conscious coders. We believe that programming skills can be leveraged to create innovative solutions for environmental issues, and we are committed to educating and inspiring fellow students to do the same. Through our programs and initiatives, we aim to provide a platform for learning and collaboration, where students can develop their technical skills and channel their creativity towards sustainable solutions.
